

GPE-TURBO – WHO WE ARE

Your equipment will never be in safer hands.

German Pneumatics Engineering GmbH was established in Leipzig 2013 as Original Equipment Manufacturer for turbo compressor units. We are experts for the development of new machines, the maintenance, the supply of spare parts and the reconditioning of existing machines.

We stand out with fast responses, with customized solutions, with the ability to build fully API compliant and tailor-made-machines.

Our experts are at your disposal with many years of experience, established engineering knowledge and ability to react quickly. With an already global reference list, we travel around the world supplying and supporting compressors in multiple sectors helping keep the wheels of industry turning.

TURBO COMPRESSORS – OUR PERFORMANCE

German Pneumatics Engineering GmbH

GPE TURBO COMPRESSORS

We offer reliable solutions based on experience.

- Complete compressor solutions
- Main components sourced in Germany
- Dynamic balancing in our workshop
- High speed balancing with our partners
- In house assembly and testing
- Engineered solutions for gas sealings
- PLC programming & software modifications

EXPERIENCE IN AIR AND PROCESS GAS COMPRESSION

We operate in any terrain and with any gas.

- Onshore
- Offshore
- Tropic
- Desert
- Hydrocarbon mixtures
- Hydrogen
- Sour gas and others
- Air

30 years plant life

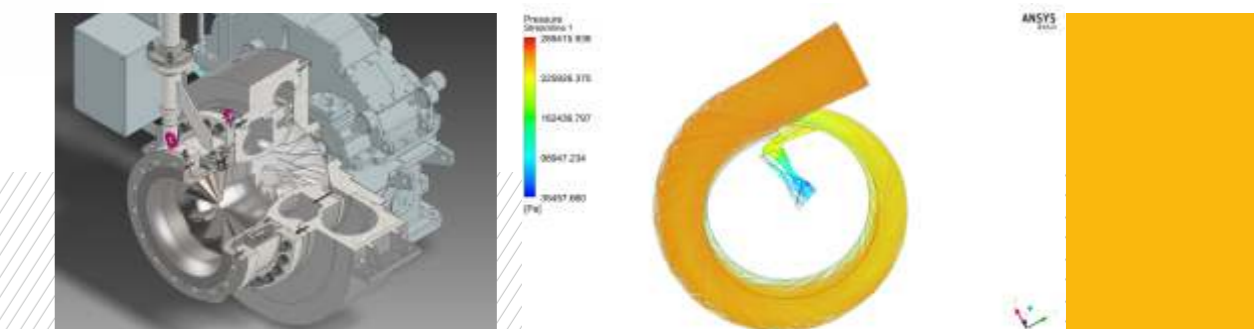

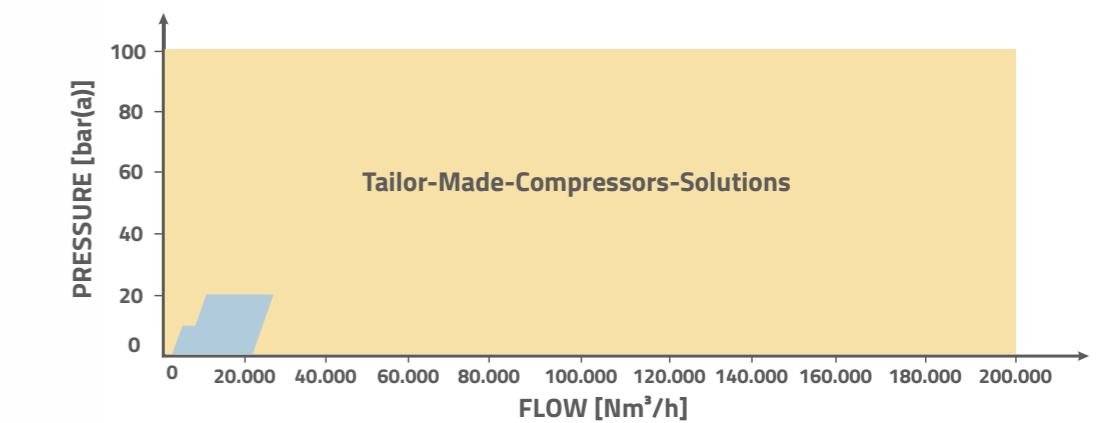

COMPRESSOR OPTIONS

We design the right compressor for your plant.

Compact and predesigned compressors

Tailor-made-compressors

HIGH TECH - MADE IN GERMANY

You can count on our quality.

CERTIFICATE

The Certification Body
of TÜV SÜD Management Service GmbH
certifies that

German Pneumatics Engineering GmbH
Hans-Weigel-Str. 10 b
04319 Leipzig
Germany

has established and applies
a Quality Management System for

**Sales, Engineering, Design,
Service and Maintenance of
Turbo Compressors, Auxiliaries and Accessories.**

An audit was performed, Report No. 707073200.
Proof has been furnished that the requirements
according to

ISO 9001:2015

are fulfilled.

The certificate is valid from 2018-09-14 until 2020-05-07.
Certificate Registration No.: 12 100 53973 TMS.

APPLICATION AREAS

We offer reliable solutions based on experience.

- Power Generation
- Metals and Mining
- Steel Industry
- Chemical and Petrochemical Industry
- Refinery
- Air Separation
- FGD and Wastewater treatment
- Industrial Gases

EXPERIENCE IN AIR AND PROCESS GAS COMPRESSION

We keep your compressor running.

- Complete Compressor Solutions
- Service / Maintenance / Commissioning
- Troubleshooting at turbo machines
- Analysis of actual conditions of turbo machines
- Revamping / improvement of turbo compressors
- Reverse Engineering and Supply of spare parts
- Dynamic balancing in our workshop
- High speed balancing with our partners
- Engineered solutions for gas sealings
- Retrofit of control systems
- PLC programming & software modifications
